**Summer's  
Bounty  
Share**

Our Summer's Bounty Share includes all of the best organic vegetables that summer has to offer. Our 12 week program focuses on the crops that we New Englanders eagerly await for 9 months out of the year. Tomatoes fresh off the vine, sweet red and yellow peppers, tender baby summer squash, zucchini, and cucumbers, sugar snap peas... The list goes on.

We began offering a vegetable CSA program 15 years ago, and have refined our model to what works best for our members as well as our family. The season will last for 12 weeks from July to mid-September when the bulk of the summer's bounty is available.

The share also includes a Pick Your Own garden for members to enjoy as well. It is brimming with herbs such as tarragon, thyme, sage, basil, and parsley. Sunflowers, zinnias, cosmos, and many other beautiful flowers are available for picking as well. It's a great place to relax after a long day, and children love to pick a bouquet to bring home.

Our members also enjoy an "extras" table where 2nds tomatoes, oversized squash, and other not quite perfect vegetables await a home.

## **New Roots Farm 2018 Summer's Bounty CSA**

The share price is **\$450** for the 12 week "high season", with pickup on **Tuesdays between 3 and 6** at the farm.
